FAMILY OF AGENCIES | UNCONDITIONAL CARE

# Seneca's Values

- At Seneca, we are driven by the fundamental belief that children and families do not themselves fail, but rather are failed by systems unable to meet their complex needs.
- Guided by our core agency values of **love, compassion, joy, hope, courage, respect, curiosity, equity, and justice** Seneca refuses to fail the young people and families we serve.

# Who we are and what we do

- Seneca Family of Agencies (formerly Seneca Center) was founded in 1985 as a small Bay Area residential and day treatment program with a simple but powerful mission: to help children and families through the most difficult times of their lives. Since then, Seneca has expanded to provide a broad continuum of permanency, mental health, education, and juvenile justice services, which today reach over 18,000 youth and families throughout California and Washington State each year.

# Seneca's Commitment to Diversity, Equity and Inclusion

- The Seneca Family of Agencies is committed to practicing cultural humility and fostering diversity, equity, and inclusion within our workplaces, schools, and communities. Seneca is committed to becoming an anti-racist organization, both internally as it relates to staff policies and practices, and externally as we advocate for and support our clients.

# **WISe Services**

Updated September 2022

# Seneca's WISe program model

## WISe

- Individual and Family therapy
- 24/7 Crisis hotline support
- Psychiatry Services available
- Team approach that includes multiple providers:
  - Therapist
  - Care Coordinator
  - Youth Peer Partner
  - Family Peer Partner

# What is WISe?

- The WISe model of service is designed to be a comprehensive community-service model to provide the most support to youth and families who may be managing difficult or acute situations in the home or school setting.
- Each youth enrolled in WISe works with a clinician, care coordinator, and a youth or family partner
- Youth meet with their therapist once a week and a youth partner once a week if desired. These are fun community focused meetings! A walk, the park, grabbing lunch, meeting in our office clinic, etc. The goal is to engage in a comfortable setting to best engage youth.
- The goal of the WISe team is to increase and build upon existing natural supports in the youth/family's life while focusing on successful completion of agreed upon therapy goals.
- Services can last as long as the youth and family need them to, no specific time limit.

# Eligibility
